JOSIAH TURNER, Jr., EDITOR.

From the New York Herald of September 30

VIRULENT ATTACK ON MR. GRANT.

The President Charged by Two of his Party Organs with Being Implicated in the Late Financial Panic—$125,000 Alleged to Have Been Given to a Member of his Family.

In conversation with a prominent Wall street man yesterday—a gentleman who is fully conversant with every move of finance, and who is interested to the extent of millions of dollars—the following astounding queries, which he stated pointed the way to a clear *expose* of the whole transaction of the panic of last week, were propounded: In an editorial article published in one of our morning cotemporaries of September 24, this paragraph occurs. After alluding to the advent of the irrepressible Fisk in the Gold Room they say:

They not only bulled gold with a will, but talked freely of the warrant which they had from Washington that the government would not interfere with them.—The highest official in the land was quoted as being with them, and he, of course, controls the action of the Secretary of the Treasury, and the New York Assistant Treasurer. Mr. Corbin's name is also mentioned in connection with the clique, who, by the way, is brother in law of the President.

Now, who really compose the ring that made up this tremendous combination to put up gold and ruin thousands to gratify their insane lust for greed? Who is directly responsible for the paralysis in trade, the fall in stocks, the general distrust exhibited in almost all mercantile transactions, and the clouds which have obscured the whole financial sky? If this crusade against the street, this unheard-of-audacity in grappling with iron fingers the whole, aye, and five times more gold than lies in the governmental and bank coffers of the whole country were the work of any one man, the country might well tremble and say, Who and what is the power that in forty eight hours can work such a tremendous revolution? The solution of the problem can only be given in one way. The government hold in their vaults say $70,000,000 coin, and the banks about $15,000,000, in all less than $100,000,000. What individual or clique of men who have the brains and the money to undertake such a gigantic movement would do so unless they had the most undoubted assurance from the government that no gold should be thrown on to the street to defeat their plans, and incur losses of millions to themselves?—How long has this scheme been in progress and who were the originators? The ruined bankers of New York demand to know it. An indignant country demands it, and asks why the carriage of the cool-headed, sharp, keen President of the Erie road has been seen morning and night in West Twenty-seventh street, at the residence of the brother-in-law of the President. Perhaps the confidential agent of the shrewd prince of Erie, who has in the last two weeks, made so many midnight journeys to Washington, Pennsylvania, might explain something about the matter. The frequent interviews of the admiral with General Grant at New York, Saratoga, Long Island Sound, and elsewhere are very significant. Whose influence was it that appointed the present Sub Treasurer of New York after another man's commission had been made out? and what kind of a bargain was made. How much money has been sent to Washington that was not used in furnishing the White House in the last week or two? Who cashed the $100,000 check and the $25,000 check handed to a member of the President's family? Now, what shall we say in the face of all this, and at whose door lies the blame of all this terrible evil?

[From the New York Sun, October 2.]

It is sheer nonsense for any one to imagine that men like James Fisk, Jr., Jay Gould, Belden, Martin, Heath and others of great shrewdness and foresight, men who had handled millions, would launch all and more than they really owned into a speculation that was wholly blind, and which could be bursted to their utter ruin by government's interfering with their plans. They made no reckless venture, as the sequel will show. They found in Mr. A. R. Corbin, the brother in-law of the President of the United States, one who would answer as a cat's paw between the bull clique of Wall street and Washington. The clique believed themselves secured from all danger of ruin and loss by assurances from Washington that their plans should not be interfered with. This was arranged by Mr. Corbin, who, as the clique believed, made sundry visits to different places, to consult with the President. When the arrangements were perfected the clique began heavy operations, and purchased gold at 32, 33, 33½, 34, 34½, 34¾, 35, 36, until last Thursday, when they held *one hundred and ten millions* gold. And Mr. Corbin purchased very heavily. He was visited from three to five times a day by Mr. Fisk, Jr., who was the only person with whom Mr. Corbin came in contact during the gigantic operations of last Thursday and Friday.—When the highest rates had reached the climax which the leaders anticipated, they sold heavy at 150 to 155, and large amounts among the 40s, while they were keeping up the plan of deception by buying small sums at 155 to 160. While Fisk, Jr., was coolly unlocking his millions and reaping immense fortunes for the clique, Mr. Corbin unfortunately held for higher rates, and was caught with millions on his hands when the wild day of last Friday ended. Fearing that Boutwell might have determined to follow up his sale of $4,000,000 with other sales, the clique importuned Mr. Corbin to go to Washington and prevent it. Fisk, Jr's, coach was at the President's brother-in-law's brown stone mansion at an early hour last Saturday morning. It was there an hour again at noon, and again from 3 to 5 p. m. Mr. James Fisk, Jr., was with Mr. Corbin during all those hours, and at 9 p. m. Mr. Corbin hastened to Jersey City and took care for Washington. With him, the *Herald* has stated, he took a certified and indorsed check for $100,000 in gold. Mr. Abel R. Corbin and Mr. James Fisk, Jr., have manipulated a scheme at once so gigantic that the whole web and woof of our commercial and financial structures have been nearly ruined. Business has been prostrated, homes made desolate, and hundreds have gone down in the terrible vortex which, but for Secretary Boutwell, would have engulphed the whole country. Well might Mr. Corbin endeavor to hide his hand in the affair. Well might he tell our representatives that the Prince of Erie and the King of the gold clique had not been at his house for three months, when his coach had hardly left his doors for days! Fisk, Jr., had watched him, hung guard over him, wielded him to his will, while his compeers turned the thumb screws upon the Wall Street victims. The mystery is solved.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with BOWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, OCTOBER 8, 1869.

EXPENSE OF THE STATE GOVERNMENT.

Under this caption the *Standard* attempts an answer and refutation of our article on the same subject, which appeared on Wednesday morning last, and, as is usual with that paper, fails entirely to meet the point. In our article we stated that there was much complaint among the people, of the extravagance manifested by State officials; that we had looked to see if there was any warrant in law for their extravagance and reckless waste of the people's money, and that we had found there was, in the act passed by the General Assembly prescribing and defining the duties of the officers of the Executive Department. We then recited facts from the clauses of the act in relation to each one of these officers, to show that the Legislature had given them *carte blanche* in regard to the expenditure of the people's money.

We did not say that they had gone to the extent the act allows them to go, in expenditures, for in this respect they are *stolen tel*. We said, and now repeat, that no Legislature of this State, ever dared, in the good old days of honest administration of the government and responsibility of the Legislature to a *constituency that paid taxes*, to place the management of the finances of the State so unlimitedly under the control of any man or set of men. The *Standard* does not deny, that this unlimited power is given to these officers by the Legislature, in the act alluded to, nor does it bring one single fact or figure to disprove the statement we made that the expenses of the State Government are much larger than ever before.—The statement we made is undeniably true; for we know we used to get along with two or three hundred thousand dollars, and that now it requires two or three millions. Nor will it do for the *Standard* to say that this increase is on account of the war, for the people know, and the *Standard* knows, that every dollar of the war debt, no matter for what purpose contracted, even for charity, has been repudiated.

Yes; the *Standard* felicitates itself and party, and comes back on the SENTINEL, because, forsooth, the State officers have not yet gone the full length of their cable; have not done as bad, nor been as extravagant as they are allowed by this act of the Legislature. But, as we said before, they have been sufficiently extravagant and reckless already to cause complaint and inquiry among the people; what the people will think and say they indulge more in the license given them, remains to be developed hereafter.

But about the *ice*. We stated that we had understood the ice-bill for the capital was nearly a thousand dollars. We made the statement on rumor, and for a purpose. We desired to "draw them out" on the subject, and succeeded. The *Standard* says the ice bill is "*only four hundred and sixty six dollars!*" While the honest, hard working man was ploughing in the hot sun to make money to pay for this ice, and drinking branch water, perhaps, and that mixed with the sweat that ran down his sun-scorched face, these fat and sleek Government officials were sitting in the cool offices of the Capitol, with plenty of good, cool well water in sixty yards of them, spending *four hundred and sixty six dollars* of the people's money to buy ice to put in their water! What do you think of that, tax-payers?

But when we tell the people of these outrages and corruptions, the *Standard* comes forward and accuses us of stirring up strife, of injuring the public interests and retarding the general prosperity, and, (save the mark!) threatens us with *Judge Watts* and the Grand Jury! hints at "exciting discontent and disaffection in the minds of the people, for the purpose of exciting the subjects of the State to hatred and contempt of the government under which they live and are sworn to support." Make false charges and accusations! That's rich! Especially for a paper that published the Legislative Address and the article "Work!"

Are plundering, robbing and stealing, a part of the Government and Constitution under which we live? Are official ignorance, incompetency and extravagance, a part of the Government and Constitution under which we live? Are bribery and swindling and lobbying unconstitutional bills through the Legislature, a part of the Government and Constitution under which we live? Are high and burdensome taxation, detective militia, public spies and disregard to all private rights, a part of the Government and Constitution under which we live? Are we sworn to support all this? We are willing to try the issue, whenever Judge Watts shall call on us so to do. But we don't suppose the *Standard* was speaking by *authority* of Judge Watts, in making his suggestions; but if he were, it is all the same to us. We expect to tell of the reality, extravagance, outrage and crime of the Radical "Ring" and Radical officials, as long as they let us remain out of jail, and when the test comes, we'll be pretty apt to prove the truth of what we write about them.

We are not much scared.

WHERE IS THE MONEY FOR THE BONDS?

A gentleman in one of our Western Counties, writing us on business, says:

"At present money is very scarce all through these mountains. Our farmers have been furnishing the contractors on our Railroads with all their spare produce, upon the promise that the managers of the Road would provide money to pay for it; but, up to this day, the Treasurer assures me, there has not been one dollar placed in the Treasury of the Company. The tax gatherers are calling upon the people for the enormous taxes levied, and the people, having credited the contractors for the very produce upon which they depended to raise the money to pay these taxes, are uttering curses loud and deep against the head managers of the Road, who, they believe, are speculating on the bonds, instead of paying those who are trying to build the Road."

Our mountain friends are very shrewd guessers, if their surmises in regard to the bonds are the result merely of their own reflections on the subject, and their knowledge of *the character of the men* who manage our railroad affairs. They have not missed the mark, in regard to the disposition of the bonds, that *ought* to have been used for the purpose for which they were ostensibly appropriated, but which has not been done. A good many of these bonds—those for the very road to which our correspondent alludes—we have good reason for believing, have been sold, and the proceeds diverted on private account, to stupendous speculations in another State. However this may be (and we think it will be made to appear plainly before long,) it is very certain that large sums of money have been borrowed in New York, on the hypothecation of the Railroad bonds of this State, on various time, varying from thirty days to six months, and if the money has not been placed in the treasuries of the Companies that have thus raised it, the question may be very pertinently asked, where is it? Under the circumstances, our mountain friends, in common with the people of the entire State, may very naturally conclude that the "head managers" have been "speculating on the bonds instead of paying those who are trying to build the Road."

We are on the track of some of the recent securities practised in New York in regard to the Railroad bonds of the State; the track is becoming warmer as we follow it up, and we have no doubt of being able in a few days, or weeks, at most, of laying the whole matter before an indignant and outraged people, in all its glaring colors of corruption and atrocity.

Our correspondent says: "in a few days, a meeting of the stockholders will be held and if there is not some good cause shown, for this apparent rascality, you may look out for something rich from this quarter."

That is the way to go to work. Let the people everywhere arouse to an assertion of their rights on this as well as all other subjects, and call to account those who have the control of their interests in their hands, and who, with an indifference, independence, and reckless defiance of public opinion, never before witnessed in this or any other State, are using the finances of the State for their own emolument and to the detriment and even ruin of the hard working, tax paying citizens. When this meeting is held, let the managers of the road be required to tell where the money is that has been raised by the hypothecation of the bonds of the Road; let them be required, at once, to tell the conditions upon which the bonds of the Road have been placed in the hands of Crews, the bond broker, who has had bonds placed in his hands for sale. Let them be required to tell where *three millions* of the seven millions appropriations of the W. N. C. R. R. bonds are, and in whose hands they are, and what use has been made of the proceeds of the sale of them? Press these questions, the answers are important to the interest of the share-holders and contractors of that Road, as well as to the public generally.—The above, and many other things in connection with our Railroad management, will soon be fully developed to an outraged people, but not soon enough, we fear, to prevent the utter prostration of our finances, and the ruin of the State's credit.

CHATHAM EDUCATIONAL ASSOCIATION.

The Chatham Educational Association met at Ruffin Badger Institute on 1st October. There was a very good attendance of members, and the people evinced their interest by attending the meeting. The session lasted for two days, and much important work was done. This Association is a complete success, and shows what might be done in every county, if only a little effort were made. We hope that at the State Educational Convention which commences in Raleigh on the 21st inst., that some steps may be taken, looking to the formation of Educational Associations in every county. On Friday night, Prof. McIver delivered a very interesting address upon the 'History of Astronomy." For an hour an a half the address was listened to by a large audience with marked attention. On Saturday the Association was addressed by J. G. Rencher, Esq., of Pittsboro. His subject was "The mutual relation of Teacher and Pupil." The address abounded in interesting statistics, was a clear, forcible, and eloquent argument in behalf of teachers.

A Teachers' Institute was discussed, and the Association determined to establish one at Pittsboro, and will meet in the Pittsboro Scientific Academy, on 20th December next. A corps of able instructors will be present, and there will be ample supplies of Apparatus, Maps, Charts, Globes, &c. Teachers desiring to attend are requested to address, Maj R. W. York, at Raleigh, or Capt C. B. Denson at Pittsboro. There will be no expense incurred by those attending, except for their own board, all other expenses being defrayed by the Association.

The Association has established a Committee on statistics of schools. It is to be regretted that mail facilities are so bad that it is almost impossible to communicate with teachers. Seven academies, however, were reported, which make up the following aggregates: There are 7 high schools taught by 15 teachers, and 399 pupils.—There are used in these schools 266 pieces of aparatus valued at $1,440 00. 900 specimens in Geological cabinets, valued at $400.00. 271 maps and charts, valued at $636 00. 1,300 specimens in gardens, valued at $1,050 00. 3 school printing presses, valued at $190.00. 1,375 volumes in libraries, valued at $1,580.00. Total value of appliances as above, $5,296.00. The schools reporting were Mt. Vernon High School, Messrs. Emerson and Andrews Principals; Locust Hill Seminary, for girls, Rev. Robt. Sutton, Principal; Pittsboro' Scientific Academy, Capt. C. B. Denson, Principal; Sylvan Academy, S. Finley Tomlinson, Principal; Raffin Badger Institute, Rev. Brantley York, Principal; Haw River Academy, T. B. Lester, Principal; Yates' Academy, W. H. Merritt, Principal. These facts, which we get from a gentleman who attended, certainly are gratifying. It shows that in North Carolina there are good schools, that these schools are well supplied with libraries, apparatus, and other appliances necessary for instruction. Here are seven schools which has grown up since the war, and, yet, have libraries, cabinets of minerals, &c., to the value of $5,296 00. If there were an association in each county, collecting faithfully the statistics of its county, and then transmitting to the State Educational Association, we could see more of the educational resources of the State. North Carolina is not the land of barbarians, and we feel certain that if the statistics of the whole State could be gotten, it would show figures of which we might be proud. What is needed, what is wanted, is the organization of the educated into Associations; this done our schools will rapidly rise.

Among the presents given to the Duke of Edinburg at Hawaii were 750 fowls of different kinds, 160 pigs, and a ton of sweet potatoes.

The Chinese Customs Department has sent to Berlin to obtain German students skilled in philological pursuits. These young men are to study for three years in China, until they become thoroughly acquainted with the language, and after passing an examination will obtain good positions, with high pay. The chief officer of the Chinese customs department is an Englishman.

Mary Hunt, an aged woman, in Fall River, Mass., who has been an object of charity for several years past, died a few weeks ago, leaving $85 in paper money, and silver and gold amounting to five or six hundred dollars, 20 yards English flannel, 16 sheets 3 shawls, 2 silk dresses, and 8 pair of blankets. She occupied a tenement in Shove's block, where she lived alone, paying at the rate of $5 per month, in eggs, keeping a coop of hens.

The Petersburg *Express* has been purchased by Isaac H. Smith and George Camp, Esqs. The *Express*, after the 12th of this month, will be suspended, and a new paper, the *Daily Courier*, issued in its stead. The *Express* was started in 1852 by Messrs. Paul & Ellyson, and after two expirations of a few months, they sold it out to a company of printers, the firm being A. F. Crutchfield & Co. The paper previous to the war was one of the most prosperous in the State. The *Courier* is to be edited by Samuel S. Davis, Esq.

Prentice is always saying something funny or bitter. The last paragraph to his credit is the following from the Courier Journal of last Thursday:

"Rev. C. W. Charlton has become the editor of the Knoxville Whig. The Whig has never been a religious paper in the strict sense of the term, and yet has always been edited by a minister of the Gospel, or by a man who claimed that title. It was first edited for many years by Parson Brownlow, then by Parson Pearne, and now it is edited by Parson Charlton. Some decent infidel would make it a much more pious and useful paper than it has ever yet been.

THE NEXT CONGRESS.—Western papers are making sanguine estimates of the transfer of power to the West in Congress on the basis of the census of 1870. They claim that the centre of political power, now reposing near Columbus, Ohio, will then be moved to a point near Lafayette, Indiana. These calculations give the eastern States of the North 86 representatives in all after the next census, and the Western, including the Pacific States, 92 or 93. New England, which in 1840 had 38 members of Congress, and now has 27, will, if present total membership of the House is retained, be likely to be cut down to 22. The Western States in 1840 had but 32, now have 75, by the next apportionment will probably have ten more.

GOLD FOR COTTON.

T. C. DeLeon, Esq., of the Mobile *Register*, was in the New York Gold Room during the recent panic. From a letter of his under date of the following day, we take the following extract:

Now, where this question touches us so nearly is the fact that there was little real demand for gold; that merchants did not offer it; and that, at this moment, large sums are on their way to this side from the other. The proceedings yesterday were gambling transactions, pure and simple; and the gold market of the whole country was terribly shaken to put four per cent. into the pockets of the "clique" who control this market for the moment. If the export demand for gold to pay duties or balances in favor of imports had been greatly we could understand it. However dissatisfied Southern markets might be, they could see some excuse, even if no reason. But when such a wonderful rise can be forced by the manipulation of a clique, with no reason to back them; when gold offered in this market by the Government is not bid for, and the purchases and sales are merely nominal for the sake of the margins carrying, then it does become a subject of grave importance to us.

Let us suppose heavy importations of gold announced make the Bulls feel the moment has come to let go. Veering round to the Bear policy, they make a clique and drop gold in an hour to 34.—They have full power to do this to-day; and they will have it any day that they make a ring and control the market for a few hours. Here, then, is where the shoe pinches the Southern producer, for so long as cotton is sold for greenbacks, and greenbacks are regulated by the will of the gold gamblers of Wall street, just so long in New Orleans, Mobile, Charleston, or Galveston the bond buyall of the sharpers, who never touch one fibre of cotton, nor perhaps one million of gold where they manipulate hundreds. At this moment, as ever, we send out far less of American products than we bring in of foreign.

Whether there be such a thing as a balance of trade or not; whether it be a fact that importing more than we export, makes us richer or poorer, the stubborn figures still remain that millions of gold have to be sent abroad annually by our merchants to pay bills for which cotton is lacking.—It is of this demand for export gold, that gold gambling was born; and it is upon its fluctuations that it thrives or weakens. But if the rings of Wall street have become so powerful that they can at will—and for mere gambling purposes—regulate the value of the money of the Government, what guarantee has the Southern planter that he may not sell his cotton crop for waste paper?

It would avail little if cotton went to 40 cents in December, if the money received for it be depreciated—by the advance of gold from combined demand and ring pressure—to a purchasing power of less than 30 cents. A rise of 3 per cent. yesterday and 2 per cent. to-day would not take long to bring about such a state of things, if continued. And that it may not be continued there is no guarantee whatever, however much we all believe that the Bulls will let go and cause a tumble quite as rapid before the week closes.

But there is a security for the Southern sellers; *and only one.* And that is to demand at every Southern port where cotton is sold, CASH GOLD DOWN FOR IT, without the unnecessary manipulation of gold checks, or of gold value in depreciated greenbacks.

A RARE SCENE IN RIO JANEIRO.—First came men on bare back, wearing masks and clad in financial dresses, boots of yellow leather, and doublets of slashed silk, plumed and gauntleted like so many knight's of Provence. Then came a bright looking rabble on foot, carrying long staves tipped with curious devices; then an endless file of carriages, the horses heavily caparisoned, and the occupants closely masked. Among the latter, a general disposition appeared to prevail to emancipate themselve from the embarrassment of clothing. They wore gaiters and hair powder, and nothing else, with the trivial exception of a thin film of silk, which adjusted itself, like the natural epidermis which it resembled in hue, closely to all the curves and proportions of the body. Their narrow black visors, fringed with flattering lace, imparted a dismal uniformity to their faces, but their legs and busts expressed unequivocal individuality. Some were of Amazonian proportions, stout, portly, and sausage like in contour; others light and graceful as Aphrodite; others sylph-like and unsubstantial, as if they had been of "the stuff which dreams are made of," and were likely to be caught up by the wind and whirled away.

The Russian peasants have an exceedingly comfortable and convenient habit of saving money. A correspondent of the *Evening Post* says that a shabbily dressed and illiterate peasant came into the Treasury at Poltava and expressed a desire to change some old paper money for the new issue. When asked how much he had he said he did not know; that he and his wife were unable to ascertain the amount, although they had counted two whole days. An officer was sent to the peasant's house and several bundles of notes taken from a hole in the floor were found to contain 86,000 roubles, and there were 5,000 or 6,000 more in coin. Suspicions were of course entertained that he had come by his money dishonestly; but the whole family had borne a good character, and on inquiry there was no reason for detaining him, and his money was changed for him into new notes. This large sum represented the savings of three generations, and similar cases are said to be very common among the lower classes in Russia.

COSTLY STORY.—The Supreme Judicial Court, in session at Dover week before last, was occupied three days with the trial of the case of Ricker vs. Freeman—an action brought by the plaintiff against the defendant for injuries sustained eleven years ago, when the parties were school boys of about twelve years of age. The evidence showed that during the recess of the school which they attended, the boys were "skylarking" on the stairs, in the course of which Freeman threw Ricker so violently that he fell upon some hooks in the wall, one of which entered his neck and did him so much injury that he has never recovered from the effects of it. The damages were laid at $5000, and the action has been deferred till this late day when the parties became of age. The jury rendered a verdict for the plaintiff, and gave him damages to the amount of $3250. No malice was imputed to the defendant, but the act for which he is made to pay so smartly was the result of the rough play in which school boys frequently indulge.—*Concord (N. H.) Patriot.*

REV. DR. KIERNAN, ARCHBISHOP OF ARMAGH.—When a cable telegram about three weeks ago announced the death of the Archbishop of Armagh, it was supposed, in this country, to have referred to Dr. Beresford, the head of the Protestant Church of Ireland. Advices by mail show that the telegram referred to the death of the Most Rev. Dr. Kiernan, Catholic Archbishop of Armagh and Primate of all Ireland, who died on the 15th of September, at his residence near Dundalk.

GLASS SPECTACLES,
Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of
A CONCAVE CONVEX ELLIPSIS,
Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by
MORRIS BERNHARDT,
SPECTACLE & OPTICAL MANUFACTURER.
THE ADVANTAGES of these Spectacles over all others are:
1. They can be worn with perfect ease for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.
2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.
3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.
4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr. Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.
5. After several years of public practice adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.
6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.
Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.
I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.
I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.
I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.
Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H McKEE, M. D.

Raleigh, Aug 25, 1869.
After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Pr. E. Episcopal Church.

Raleigh, Aug 25, 1869.
Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to an article of the kind I ever had before. The material in Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.
DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.
Raleigh, Aug. 26, 1869.
It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhart. To those who need artificial aid for their vision he will be of the highest service.
J. M. ATKINSON,
Pastor of the Presbyterian Church.
State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1868.
I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.
JONATHAN WORTH,
Governor of North Carolina.
State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.
Sir: I have received satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The [illegible] with which you fitted the glasses to my eyes, furnished me convincing evidence of your scientific skill in optics and your thorough experience as an Oculist.
Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,
Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.
Prof. M. Bernhardt, Charleston, S. C.
Wilmington, March 31, 1866.
I have examined a number of Professor Bernhardt's Glasses, and can say of them, that I have used none so well adapted to my eyes, giving me clearer vision. I have used, while in this collection there seem to be some adapted to nearly any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.
Nashville, April 27 1867.
The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they profess to know less they know, by long more of the business than he professes.
W. E. BOWLING, M. D.
Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

WHOLESALE & RETAIL DEALER IN FOREIGN and DOMESTIC
DRY GOODS.
WIDE AWAKE HOUSE!
DOWN STAIRS FULL; UP STAIRS FULL; SHELVES FULL! PILED ON THE COUNTER; PILED ON BOXES AND ALL ABOUT THE HOUSE!
COME TO CREECH'S!!
DRESS GOODS! DRESS GOODS! In great variety; Styles new; Goods pretty, cheap enough to buy.
FRENCH MERINOES,
in which, recognize no competition, as they will be sold just as cheap as they were when Cotton was 10 cents per lb, and money equivalent to gold.
ALWAYS COME TO CREECH'S to buy MERINO DRESSES for my money is as good as anybody's; I bought them as cheap as anybody, and intend to sell as cheap as anybody. That's the way to talk it.
GOODS FOR MEN AND BOYS' WEAR,
such as Kentucky Jeans, Tweeds, Satinets and Cassimeres. No better assortment or greater variety in the city. In fact, I have enough to keep the boys the goatins, the young men and the old gentlemen, all warm. Step in at Creech's and look at them before you buy.
HATS! HATS! HATS!
For Gent's, Boys and Children. Pull off your old summer hat; it's too late to wear it now; style is changed. In fact, a new hat looks best, anyhow. Call at Creech's corner and examine, before you buy a new Hat.
SHOES! SHOES! SHOES!
One among the largest and best assortments in the City. Come pull off your old shoes, throw away those that are worn out, and put on a new pair. Keep your feet dry, and preserve your health. Always come to Creech's before you buy.
Ladies and Misses' Hats! Hats!
No use to talk. The style has changed. Spring and Summer styles are out of vogue; so go to CREECH'S. HE ALWAYS KEEPS THE NEW STYLES.
LADIES' BONNETS.
Some small enough; some large enough from a trimmed; some untrimmed. It won't do you any harm to call at Creech's before you buy.
CLOAKS AND SHAWLS—A Fine Assortment.
Now don't you think you had just as well step over to CREECH'S, and look. Probably you will save time and money. In fact, that is just the very place to get the worth of your money; and permit me to tell the people, that when they visit the City, to COME TO CREECH'S, for thousands who have come, acknowledge the fraternal ness of my assertions.
I have more to say to you, but will tell you the balance at my place of business.
A. CREECH.

CITY AND STATE ITEMS.

FRIDAY, OCTOBER 8, 1869.

New Advertisements.—A good opening: the Asheville *News and Farmer* is offered for sale.

Tucker Hall, Skiff and Gaylord, Monday and Tuesday nights.

Change of Schedule Raleigh & Gaston Railroad.

F. C. Christopher,—dealer in Family Groceries, North side of Market Square.

Mullets, Corn, Meal, Seed Wheat and Groceries of all descriptions at B. P. Williamson's.

Jas. M Towles has on hand Bickford & Hoffman's celebrated Wheat-Drills, with Guano and Grass attachments.

The Resident Executive Committee of the N. C. Agricultural Society, will meet at their Hall this morning, at 9 o'clock.—A full attendance is requested, as business of importance will be transacted.

New Family Grocery.—As will be seen by advertisement, our young friend Frank Christophers, has opened a new Family Grocery on the north side of Market Square, in the stone building recently occupied as a Family Grocery by Mr. Jeff. Fisher, where he intends to keep a good supply of articles in his line of trade. He is making butter a specialty, and those in want of a good article of butter will be sure to find it there, if to be had.

State Fair—Nash Court.—We learn that his Honor Judge Watts, has announced in open Court his intention of adjourning Nash Court during the week of the approaching State Fair, in order to give the visitors, jurymen, officers &c., of the Court the opportunity of attending the Fair.

Another Sale.—We learn that our enterprising townsman, W. C. Stronach, Esq., has purchased the building lot, and framed house of Mr. Harry Keim, on Fayetteville street, second house north of the Yarborough Hotel, and intends, at an early day to erect there a large and commodious store.

Can't somebody buy the other house, the one nearest the Yarborough, and erect on the ground a more sightly building than the one now on it? It would add very much to the appearance of that part of the street.

The Seaboard and Roanoke and the Raleigh and Gaston Railroad Companies have agreed to transport all articles *from without* the State to and from the Fair of the North Carolina Agricultural Society, *free*. But to prevent imposition they will charge freight upon articles going, but upon return of the same, they refund the freight so charged.

Attention Ladies!—Remember that Mrs. Beasley opens her splendid stock of French millinery for your inspection to day. Her supply is large and varied; her bonnets, hats, flowers and trimmings, together with scores of pretty things that we don't know the names of, are all new and of the latest styles. But as every lady who wants a new bonnet (and which one does not?) will go and look for herself, we need say no more than to tell them, that the stock will be opened to day by Mrs. B. at her show rooms over Pescud's Drug Store.

The Grand Opening of Mrs. Oettinger's New Fall and Winter Stock of Ladies Hats, Bonnets and Millinery Goods, takes place at her old stand, to-day, as announced by a vertisement many days ago. We do not mention this fact under any apprehension that the Ladies have forgotten—they don't forget such things—but to say that Mrs. Oettinger's stock, recently selected by herself in the Northern markets, is unusually large and beautiful. The lady that cannot be suited there will be truly hard to please.

The Minstrels.—We are delighted to welcome once again that excellent band of minstrels under the management of Skiff & Gaylord. To speak of the popularity of this troupe would be superfluous, as the patronage of our citizens hitherto has proven them no strangers to their merits.

A noticeable feature of the entertainment, says a New Orleans paper, is Prof. Shaffer's Panithsopticonic views. These alone redeem the price left at the box office. Among the most striking may be found the city of Bethlehem, the birth place of our Saviour, with the guiding star brightly beaming above the lowly place of retuge in which the wise men found the holy child, the Golconda or Crucifixion, the Temple of the Holy Tomb, St. Peter's church at Rome—exterior and interior views, and many other Biblical scenes.—The lovers of home scenes will admire Niagara Falls, Washington crossing the Delaware, &c., while those whose tastes prefer foreign beauties will be amply gratified with views in France, Germany, Italy, &c. The storm and sea is very grand; the ship is laboring under a heavy sea, clouds, thunder and lightning, the wreck and then when all is over, God's promise of peace—the rainbow spans the sky. We would say to parents that the views are both amusing and instructive and should be visited by all the little folks.—*Charleston Courier.*

Base Ball.—We learn that the new Base Ball Club, will play this afternoon on Boylan's field at half past 4 o'clock

The Club, we learn, will play on the afternoon of each Monday and Friday for the present.

At Nahunta, a Station on the Wilmington and Weldon R. R. on Tuesday night last about 12 o'clock, the stables of Mr. W. W. Barnes, were burned to the ground, burning to death one negro boy and badly scorching another. There are strong suspicions that the fire was the result of grudge that existed among some against Mr. Barnes, on account of some past difficulty.

We are under obligations to Alfred Williams,—Bookseller, for the October number of the "XIX Century."

This is a most excellent Southern Magazine, containing always choice reading matter of the highest standard of literature.

This number is full as usual of entertainment. Miss Annie M. Barnwell furnishes "Bandits of the Hartz Mountains," a thrilling legend; Dr. Simms, continues his Reminiscences of Southern authors; "Personne" gives us another chapter from "The early scenes of the war;" Rev. John Bachman D. D. furnishes an interesting personal sketch of Humboldt, and in the "Political Crisis," which is evidently from the pen of a statesman, is suggested the remedy for the present misfortunes of the South. There are many choice articles in prose and poetry besides, attractive to both young and old.

At Mr. William's store can be found all the best priodicals published in the country and in fact everything that should be contained in a first class Book establishment.

Suspicious Character Arrested.—A colored boy, barefooted and clad in ordinary garb, bought a ticket at the Raleigh Station, on Thursday morning by the "fast freight" train, for Salisbury. He had in his possession "a large roll of money" it was stated, much more than a boy of his dress and appearance was likely to have come honestly by. He was not taken up here, however, but on his arrival in Salisbury, was arrested, and the Mayor of that city telegraphed the fact to Mayor Harrison, of Raleigh. He gives his name there as Wallace. We have heard of no one here losing as large a sum of money as he is represented to have had. Perhaps the boy was from some other point, and this paragraph may lead to more light in regard to him.

State Fair, Cattle and Hogs.—Our State is not yet up to the times in breeding cattle and hogs—still we learn that there will be noble specimens of Alderney and other thorough bred cattle at the State Fair, beginning 19th October, also some magnificent Chester hogs and several other varieties. We have heard of a Chester boar which will be sent from Rocky Mount, 17 months old weighing over 400 lbs. As the old lady said "he is a sight to see."

It is the true policy of our farmers to raise the most meat on the fewest bones, and they should begin to pay some attention to swine, especially those remarkable for the quality of quick growth and easy fattening.

We are pleased to learn that a paper will be read by John Gattling, Esq. of Gates County, on "Pork raising in Gates," which will no doubt be interesting and instructive.

Contempt of Court.—The example set by the Supreme Court, by Judge Watts of the Superior Court at Oxford, and by Thomas Settle, J. P. of Rockingham, has been imitated by Judge Cantwell, of the Special Court, Wilmington, in ordering the authorities of that city before him for turning his Clerk out of a certain room in the city Hall, and appropriating the same to the use of the Superintendent of city schools; which action on their part, His Honor construes into a contempt of Court, as appears from a paragraph in the Wilming on *Journal*.

A negro man named McNeill, was accidentally shot with a pistol in the hands of another negro, at Shoe Heel, Robeson county on last Wednesday.

A colored man named Peter Smith, aged about 50 years, was drowned in the River, at Wilmington, on Wednesday. Whiskey is supposed to have been the cause of the accident.

The Asheville News and Farmer for Sale.

Being desirous of changing my business, I offer the "Asheville News and Farmer," for sale.

The "News" is now doing a fair business, and, in the hands of two practical printers, or one good printer and a competent editor, would yield a good profit, and when our railroads are completed, which are now being built, will become a very profitable paper.

Asheville is one of the most pleasant and healthy places on the American Continent, and will, in a few years, be the most important Town in Western North Carolina.

A cash payment of only $300 will be required, and very accommodating terms will be given for the remainder of the purchase money. Address R. M. SHORES, oct 6-d3t Asheville, N. C.

Thursday Midnight Dispatches.

WASHINGTON.

Washington Oct. 7.—Revenue to-day $391,000. Customs from the 27th to the 30th of September, inclusive, $2,50 ,000.

In the Supreme Court to-day the case of Thorrington vs Smith and Hanley involving transactions in Confederate Treasury notes at the South during the war, was argued by Phillips for the Appellant; the Appellees not appearing. The action was upon a note for $10 000, made at Montgomery in November, in 1864 and payable one day after date. The defence was mainly that at date of note there was no lawful currency in circulation in Alabama; that the medium of exchange was at the time Treasury notes of the Confederate States, and that the contract was made with the understanding and agreement that it should be discharged in such Confederate notes and not in money lawful or current by the United States.

The case of Farmington vs Sa dors, from West Tennessee, will be argued soon; it involves the question of the constitutionality of the cotton tax.

There is more activity than usual in the Navy Yard here. The "Nipsic" and "Kansas" have been ordered to prepare immediately for sea—The Nipsic will be ready in ten, and the Kansas in 20 days.

Suits in ejectment have been brought in Sumter District Court for the Andersonville Cemetery property. Judge Lochrane, of Georgia, has been employed by the Government to defend these suits.

MAINE.

Bangor, Oct. 7.—A letter from the telegraph manager at Calais, Me., says: "We are in a terrible state here, the lines both ways are fast on the ground and covered with trees and buildings.—The damage to vessels and buildings is very great. Eastport, is reported to have been demolished.

The water in the Penobscot has risen to its highest Spring mark. The booms are broken and millions of feet of logs have gone by the city, a large gang of men having been sent after them, it is hoped that most of them will be picked up

BALTIMORE.

Baltimore, Oct. 7.—The Democratic Convention assembled to-day and spent the time in considering credentials.

NEW BRUNSWICK.

Sackville, Oct 7.—The storm on Monday was tremendous. The tidal wave flooded the low grounds. Thousands of cattle were destroyed; the dykes on the marshes are all gone; bridges throughout the country have been swept away. The damage is incalculable. The loss in this small Parish is estimated at a million of dollars.

FROM RICHMOND.

Richmond, Oct. 7.—In the Senate to-day the protest of the Republican caucus, against the legality of the body, was taken up and read at length. It announces that the Republican members reserved to themselves the right, at any time, to secede from the present Legislature and organize by themselves a legal and loyal Legislature.

The Senate voted to lay it on the table

In discussion a Republican, said, he regarded those who joined in making this protest as representing the administration and Congress, until the President and Congress should decree otherwise.

It was announced that Gen. Canby had replied to the Committee of the Legislature, which waited on him, that he had no communication to make.

Gov. Walker sent in a message on the 15th Amendment, he says: "The people of this commonwealth, at the late election by an overwhelming majority, accepted and adopted the principle sought to be incorporated into the Federal Constitution by this amendment, viz: the civil and political equality of all men before the law. The well known loyalty and integrity of the people of Virginia forbids even the supposition that they would fail to faithfully adhere to and maintain, while necessary and possible, any principle which they had yielded their adherence.

Virginia always fulfills in the most ample good faith all her pledges. But our people by this action have not only placed the political rights of all our citizens upon a firm and enduring basis, they have accomplished much more, they have increased prospectively, the power and influence of our State in the National Councils, by broadening the basis of representation under the 14th Article of the Constitution of the U S.

When in any State the right of suffrage is abridged, except for crime, the basis of representation must be reduced in a corresponding proportion. Although we have wisely settled this question so far as our State is concerned and banished forever from the theatre of state politics the prolific source of irritation and discord, there is reasonable ground for apprehension, that if the 15th Amendment should fail of adoption as a part of the Federal Constitution, our State may be flooded with, and the control thereof pass into the hands of a class of emigrants from the great States, lying upon or near our borders, who will seek the enjoyment of those civil and political rights accorded to them here, but denied to them there.

Self protection, therefore, demands that we do our part towards securing the ratification of that amendment. Our interests require it, our faith is pledged to it."

He considers the election of Senators as clearly requisite to admission, and adds, "Complete restoration is accomplished by admission to representation in Congress, and there can be no question that admission to representation may, to some extent, depend upon the representatives elected.

While the election of Senators would fully complete every preparation necessary for the prompt admission of the State to representation in both Houses of Congress, election of suitable men for those exalted positions, would, mistakably, demonstrate the sincerity of our past action and afford a secure guarantee of our intentions and purposes for the future."

In conclusion he says: "Permit me to congratulate you upon the progress already made towards the restoration of the State to the civil government, the good effects are already visible. Everywhere, within the state, commerce is being restored, commerce is reviving, mining and manufacturing enterprises are being organized, capital is seeking investment in our public improvements, and in our rich agricultural and mineral lands, and above, and more gratifying than all, joy and hope, are taking the place of gloom and despondency. Peace and prosperity are once more dawning upon our distracted land.

Conscious of the rectitude of our own acts, motives and intentions, and relying upon the continued favor of the Almighty disposer of human events, let us all manly grapple with the living present, and confidently hope for a glorious future for the Commonwealth

Respectfully, GILBERT C. WALKER.

The Legislature adjourned after reading the Governor's message.

The Governor, in his message of which extra copies were sent at noon, expresses his conviction that the Legislature would ratify the fifteenth amendment promptly, even if it was not a requisite to admission. He recommends the appointment at this session of the Standing Committees, in view of the fact that our Educational and Judiciary systems, must be remodeled and placed in harmony with the Constitution. And our internal improvements demand the gravest consideration.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the RAGH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

The National,	63,49
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, for 1861, it issued only 599 policies, received an income of seventy-eight thousand dollars, and possessed assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 15,337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction, Raleigh, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
BEER'S SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October, prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by ALFRED WILLIAMS, Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with C. W. LAMBETH, Agent for the Publishers and Sup't of Introduction.

From Dr. WM. B. HARRELL, Prin. High School, Snow Hill, N. C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SMEDES, D. D., Rector of St Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALBERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Guilford, N. C.:

GUILFORD, N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Gamut in particular. J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Boardon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition. M. CLOSS.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work. M. L. LITTLE, Prin Pleasant Hill Seminary.

From Rev. S. IVEY, Prin Auburn Academy N. C.:

AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school. STINCEON IVEY.

Prof. WM. A. OBENCHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Gamut's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by those wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Gamut, with much acceptance. G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY.

From the Statesville, N. C. *American*, February 20th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1868.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1868.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. Daily *Herald*, 1868

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

UPWARD AND ONWARD!!

WHY IS IT BEST TO INSURE IN THE

BROOKLYN LIFE?

BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

Are non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

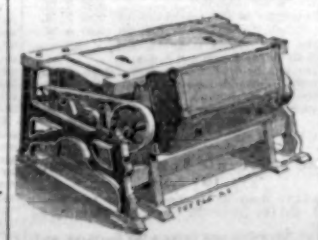
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.
